Getting started

Walk Me Through It

A retirement income planner that runs on your phone, tablet or computer.

STEP 1 ON EVERY DEVICE

Open your web browser and go to

https://rthornton3i.github.io/wmti/

Or point your phone's camera at the code and tap the link.

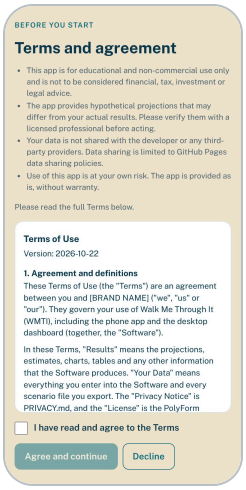

Then install it as an app

Installing puts an icon on your home screen, desktop or Dock. It opens in its own window like any app and works without the internet once it has loaded. Pick your device:

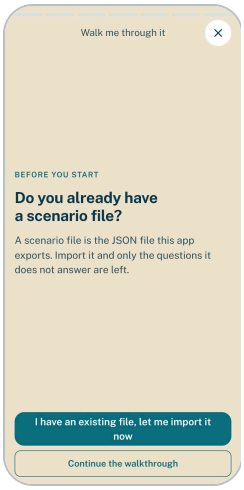

iPhone	iPad	Android	Windows PC	Mac
Safari	Safari	Chrome	Chrome or Edge	Safari or Chrome
page 2	page 3	page 4	page 5	page 6

Good to know

- **First visit:** you are asked to read and agree to the Terms. Tick the box, then tap **Agree and continue**. The app then walks you through your plan.
- **Private:** everything runs on your device. Nothing you enter is sent anywhere.
- **Offline:** once it has loaded, it works without the internet.
- **Updates:** new versions arrive by themselves when you open the app while online.
- **Moving to another device:** your plan stays on the device you made it on. Save (export) your scenario file, then open (import) it on the other device.
- The first load downloads about 20 MB, so use Wi-Fi if you can.

First screen: the Terms

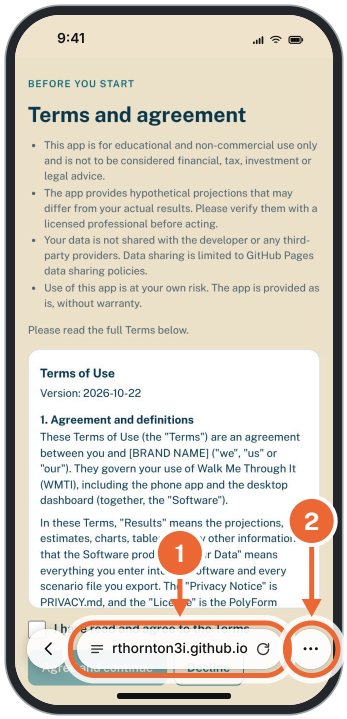

Then the walkthrough

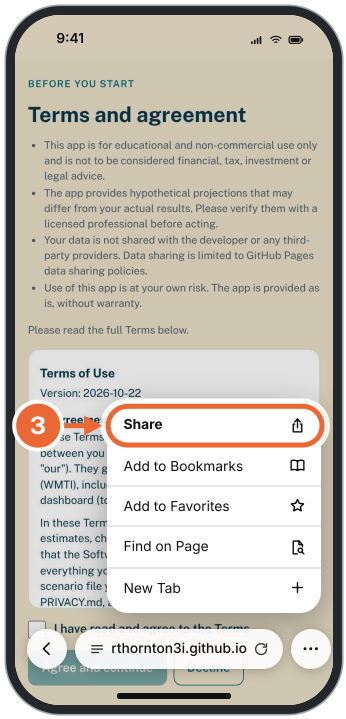

INSTALL ON

iPhone Safari

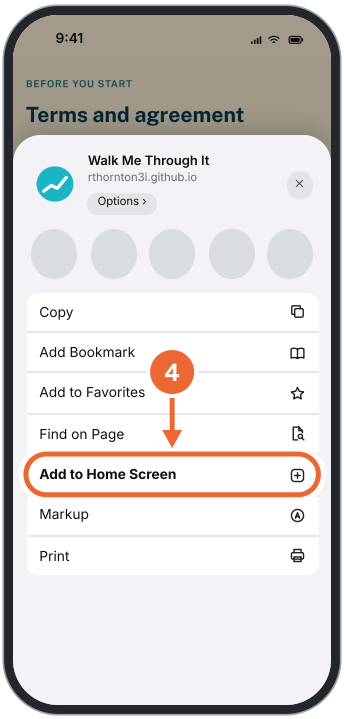

1. In **Safari**, go to `rthornton3i.github.io/wmti/`
2. Tap ··· (More) at the bottom right, next to the address bar. On older iPhones, skip this: the Share button is already in the bottom bar.
3. Tap **Share** (the square with an up arrow ⍐).
4. Scroll down the list and tap **Add to Home Screen**. Not there? Tap **Edit Actions** or **More** at the end of the list to find it.
5. Keep **Open as Web App** switched on, then tap **Add**.

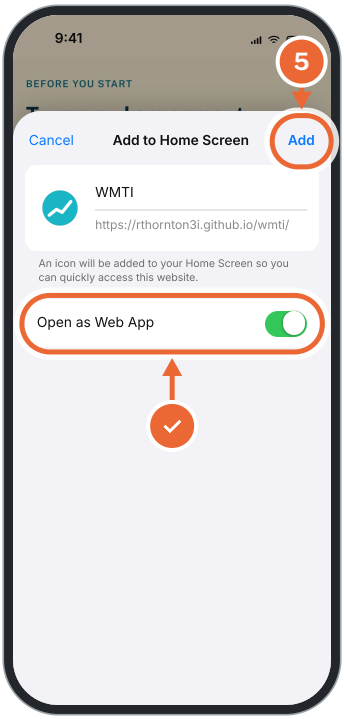

1 Go to the site
2 Tap ···

3 Tap **Share**

4 Scroll down, tap **Add to Home Screen**

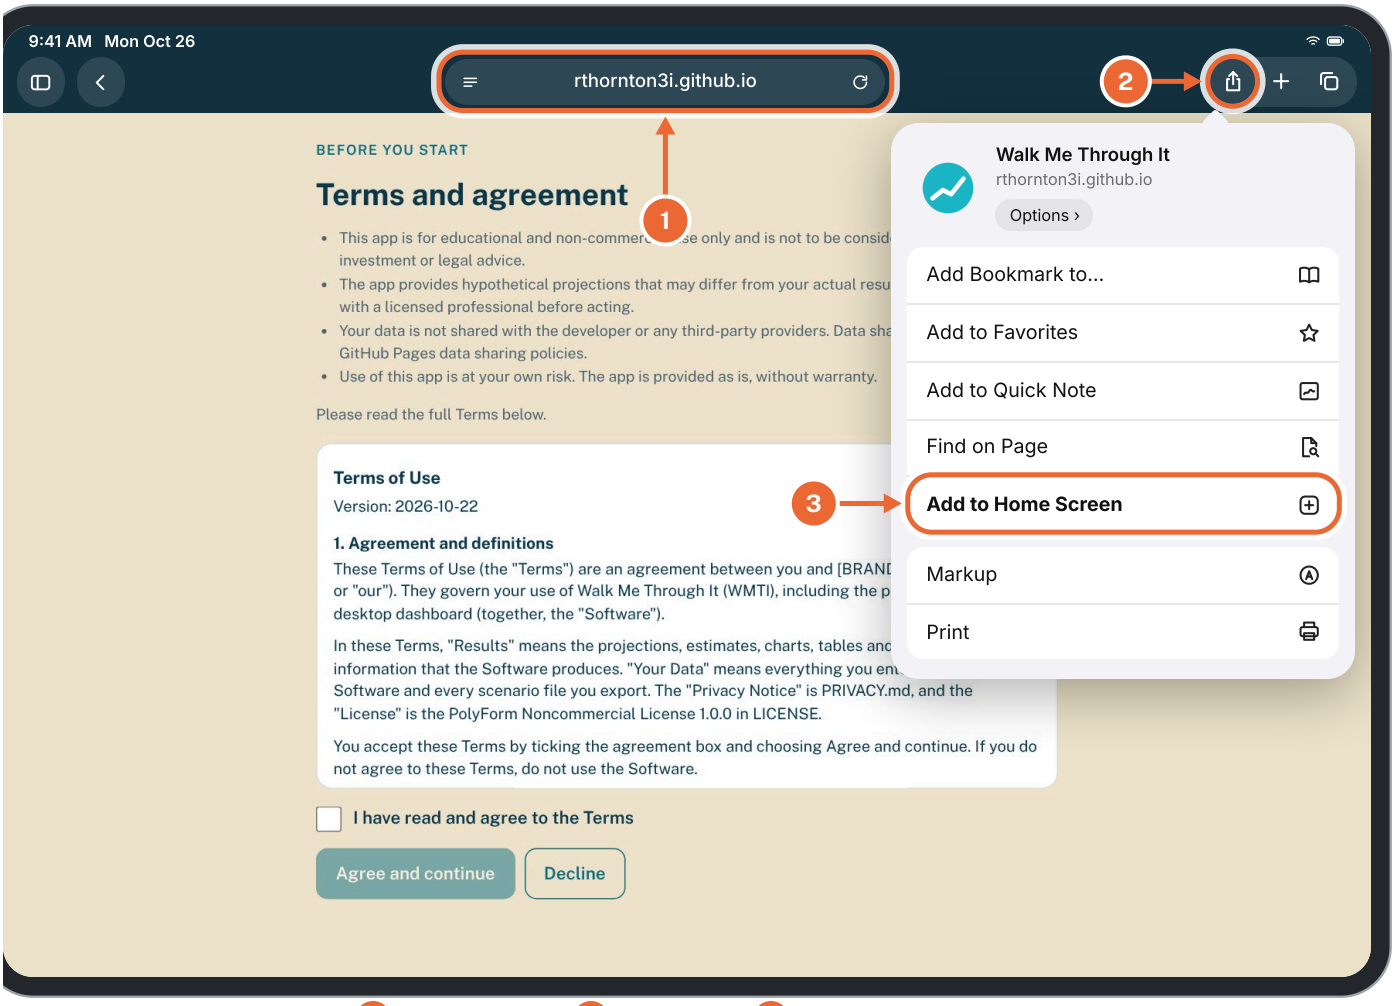

5 Keep **Open as Web App** on, tap **Add**

The WMTI icon is now on your Home Screen. Open the app from that icon from now on: it gets its own window, without Safari's address bar.

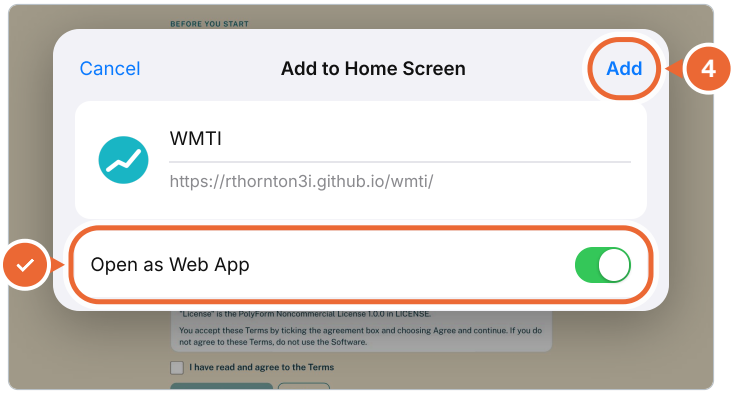

INSTALL ON

iPad Safari

1. In **Safari**, go to `rthornton3i.github.io/wmti/`
2. Tap **Share** ⬆ at the top right of the toolbar. Don't see it? Tap ··· next to the address, then **Share**.
3. Tap **Add to Home Screen**.
4. Keep **Open as Web App** on, then tap **Add**.

1 Go to the site 2 Tap **Share** 3 Tap **Add to Home Screen**

4 Keep **Open as Web App** on, tap **Add**

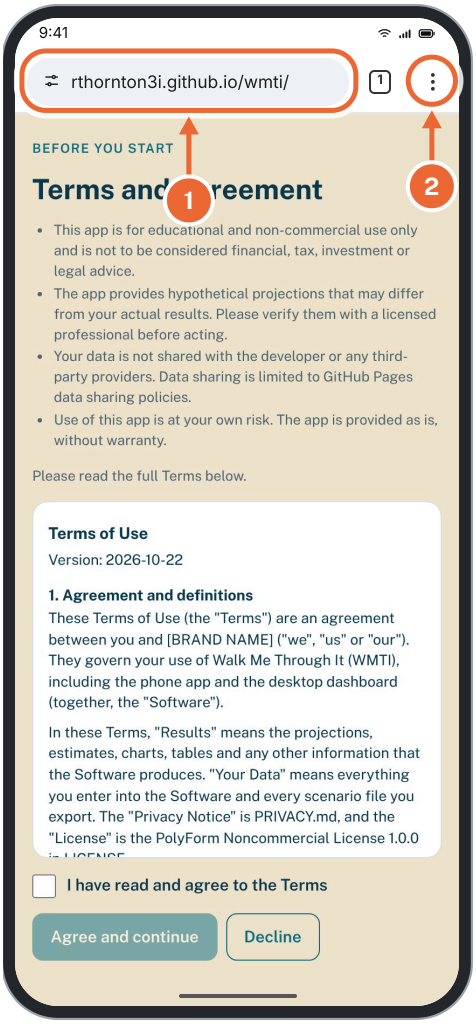

> The WMTI icon appears on your Home Screen. Open the app from there from now on.

On iPadOS 26 the toolbar can look slightly different, but the Share button and **Add to Home Screen** are always there. If your toolbar is hidden, tap the top of the screen to show it.

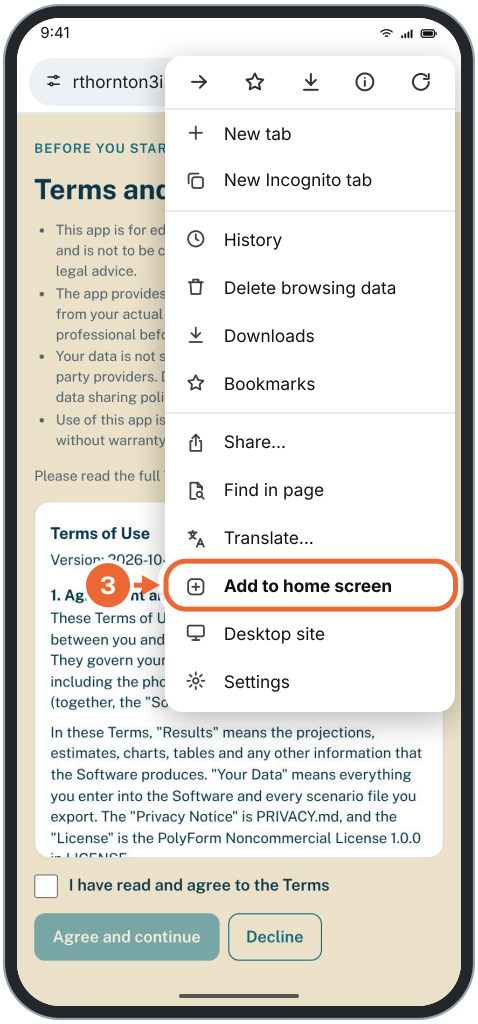

INSTALL ON

Android Chrome

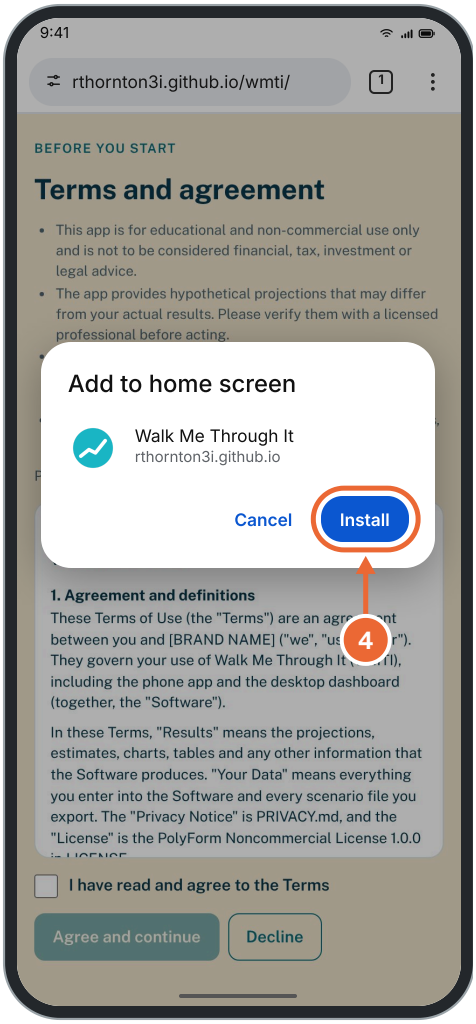

1. In **Chrome**, go to `rthornton3i.github.io/wmti/`
2. Tap the menu ⋮ (three dots) at the top right.
3. Tap **Add to home screen**. Some versions say **Install app** instead.
4. Tap **Install**. If you are offered **Install** or **Create shortcut**, choose **Install**.

1 Go to the site
2 Tap ⋮

3 Tap **Add to home screen** (or **Install app**)

4 Tap **Install**

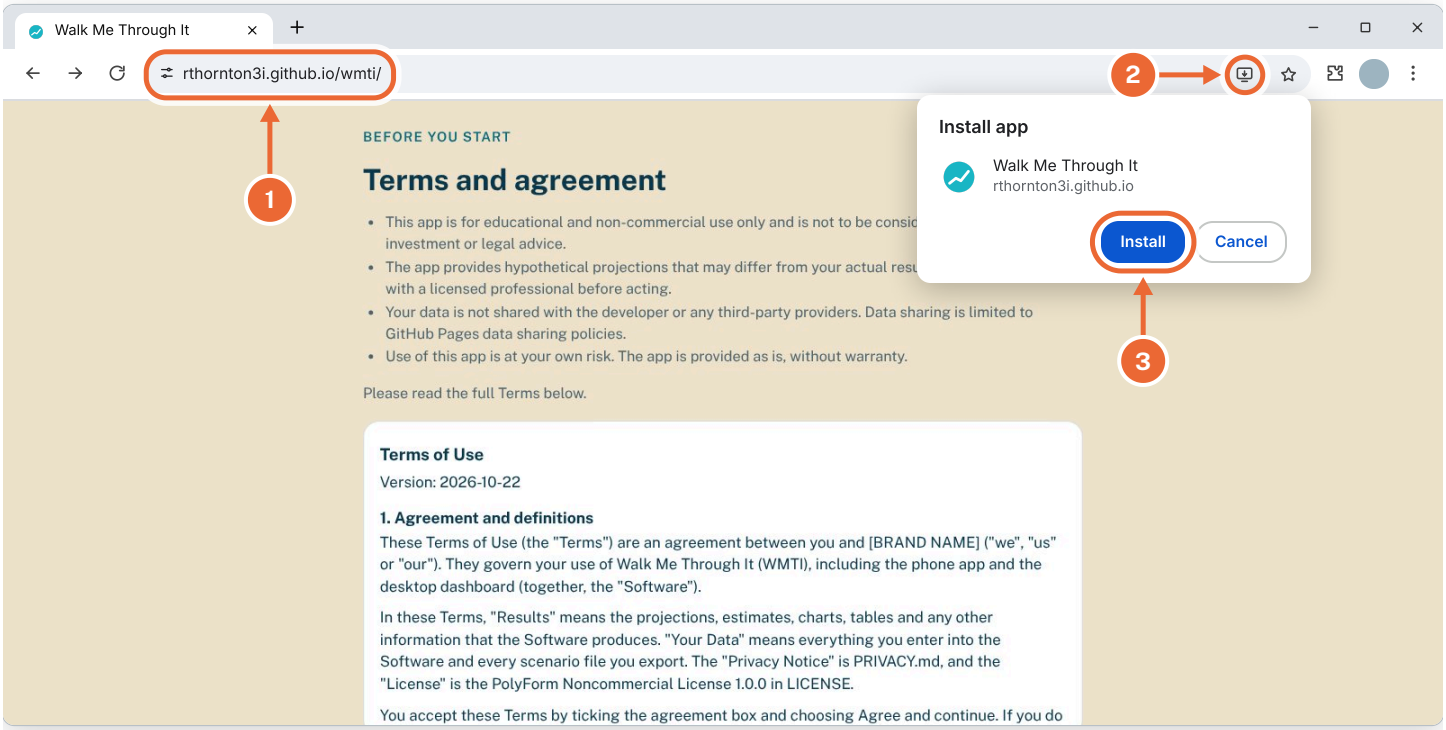

The app icon appears on your home screen and in your app list. Open the app from there from now on. Samsung Internet works too: menu ≡ → **Add page to** → **Home screen**.

INSTALL ON

Windows PC Chrome or Edge

Chrome

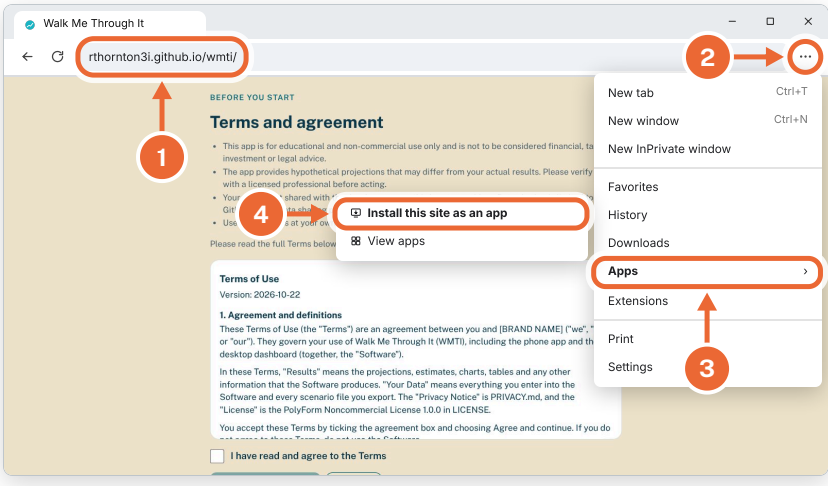

1. In **Chrome**, go to `rthornton3i.github.io/wmti/`
2. Click the install icon ⊕ at the right end of the address bar. No icon? Click ⋮ → **Cast, save and share** → **Install page as app...**
3. Click **Install**.

1 Go to the site 2 Click the install icon 3 Click **Install**

Microsoft Edge

1. In **Edge**, go to `rthornton3i.github.io/wmti/`
2. Click ··· (Settings and more) at the top right.
3. Click **Apps**.
4. Click **Install this site as an app**, then **Install**. Edge may also show an **App available** icon in the address bar: click it, then **Install**.

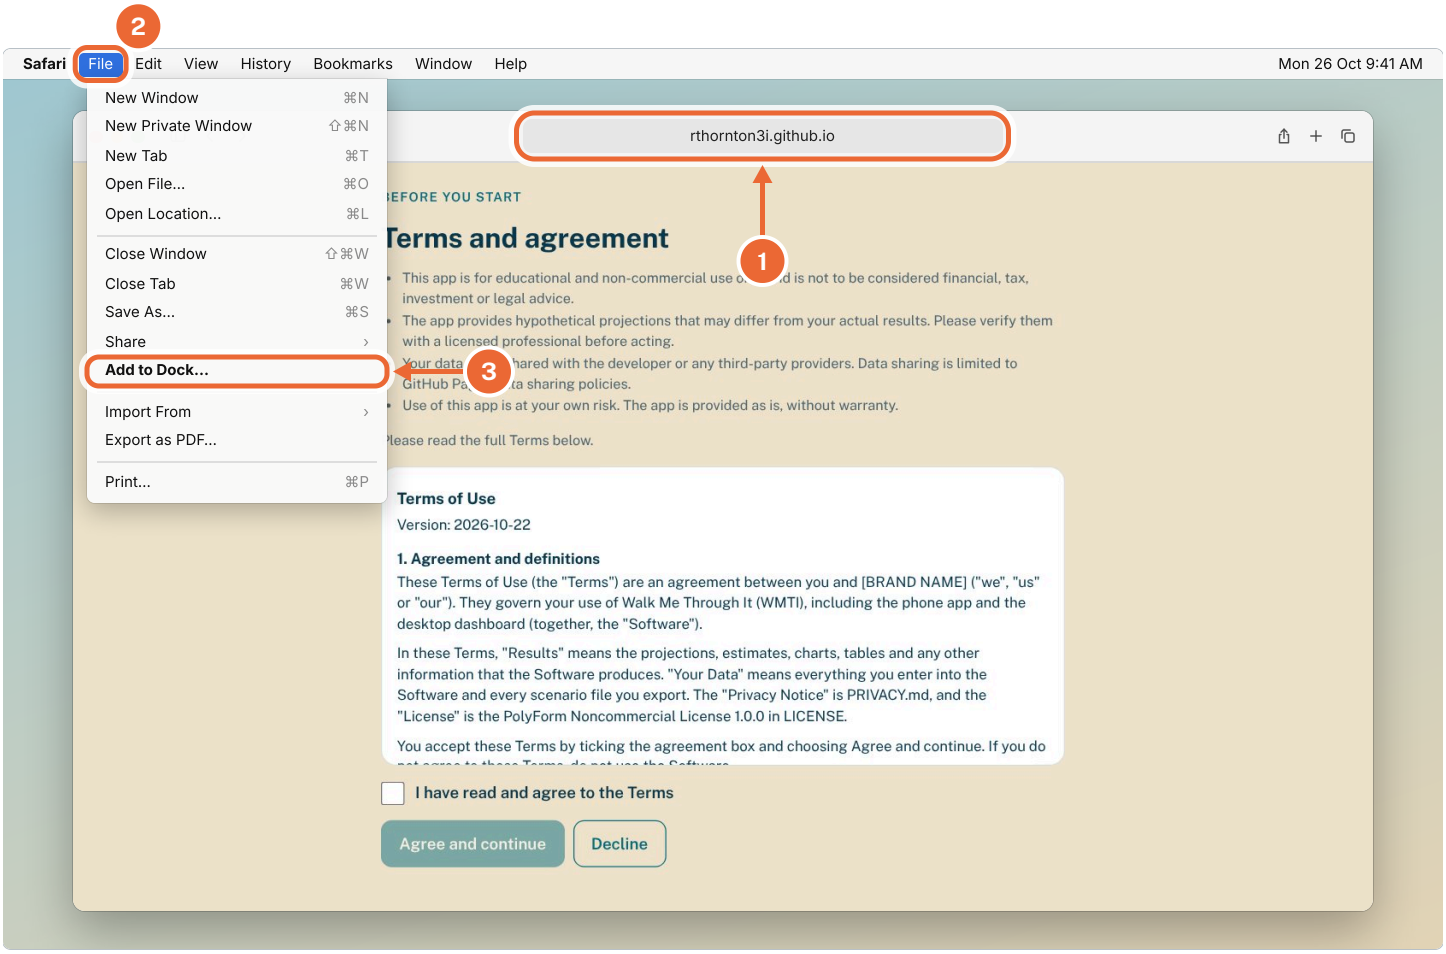

2 ··· 3 Apps 4 Install this site as an app

> The app opens in its own window and gets a Start menu entry. You can pin it to the taskbar.

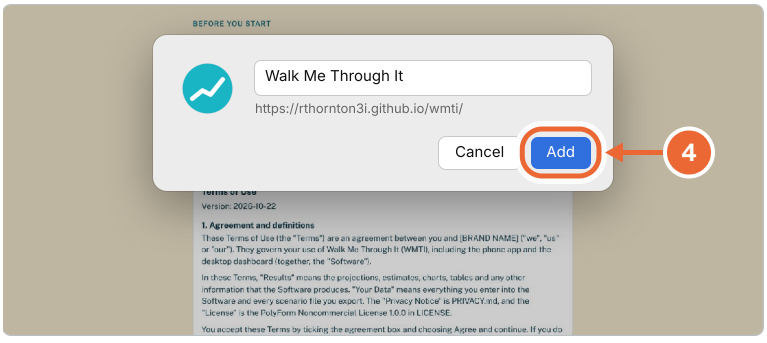

INSTALL ON

Mac Safari (macOS Sonoma or later)

1. In **Safari**, go to `rthornton3i.github.io/wmti/`
2. Click **File** in the menu bar at the top of the screen. Or click Share in the Safari toolbar.
3. Click **Add to Dock...**
4. Click **Add**.

1 Go to the site 2 Click **File** 3 Click **Add to Dock...**

4 Click **Add**

> The app appears in your Dock and in Launchpad, and opens in its own window.

Chrome on a Mac: the same as on a Windows PC (page 5): click the install icon in the address bar, then **Install**.

Older macOS? Safari before Sonoma cannot install web apps; use Chrome or Edge, or just bookmark the site.
